Family-Centered Care (FCC) Taskforce How do you know you're truly delivering Family-Centered Care in the NICU?

Morgan Kowalski

"We are excited to share that the FCC Taskforce's NICU Family-Centered Care Measures survey pilot is ready to launch! Our journey to develop this assessment tool has been a collaborative effort, spanning 17 months of dedicated work by FCC Taskforce leadership."

We are excited to share that the FCC Taskforce's NICU Family-Centered Care Measures survey pilot is ready to launch! Our journey to develop this assessment tool has been a collaborative effort, spanning 17 months of dedicated work by FCC Taskforce leadership. We have worked tirelessly with our Executive Council

of family partners and multidisciplinary healthcare professionals to ensure its effectiveness. We have included researchers outside our organization to review survey questions and further validate our efforts.

"Using the QR Code below, share contact information for your unit's clinical leader, medical director, or FCC champion to receive a REDCap survey link unique to your NICU. For successful survey completion, we recommend printing a PDF of the NICU FCC measures survey using the link we will provide."

Using the QR Code below, share contact information for your unit's clinical leader, medical director, or FCC champion to receive a REDCap survey link unique to your NICU. For successful survey completion, we recommend printing a PDF of the NICU FCC measures survey using the link we will provide. Next, collaborate with your colleagues to complete the survey using the printed PDF. Then, transcribe your answers into the online version of the survey using the original link, which can be saved along the way in case you need to come back later.

“We need your feedback to improve. After completing the survey, please share any comments on how we can refine our project to optimize this questionnaire better and capture FCC in the NICU. Once the survey is completed, you will receive results automatically and can review them with FCC Taskforce leadership.”

We need your feedback to improve. After completing the survey, please share any comments on how we can refine our project to optimize this questionnaire better and capture FCC in the NICU. Once the survey is completed, you will receive results automatically and can review them with FCC Taskforce leadership. You can collaborate with other NICUs to join topic-specific quality improvement work.

We appreciate your dedication to providing Family-Centered Care in your unit and look forward to collaborating with you!

Disclosure: This work is supported by an educational grant from Chiesi Inc. USA and a Seed 1 Partnership Award from Stanford Impact Labs. Thank you to Reckitt/Mead Johnson for supporting our work.
