

PROJECT NICU

COUNSELING PROGRAM

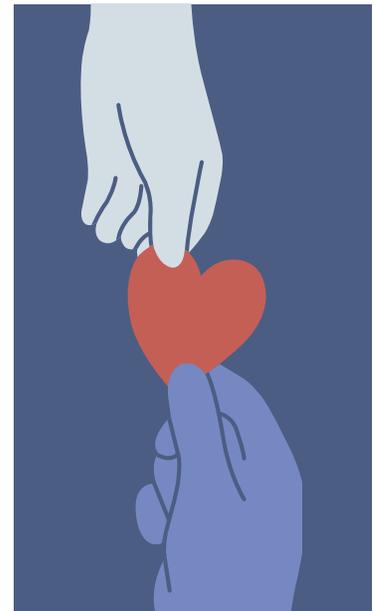

IN PARTNERSHIP WITH  **betterhelp**

We at Project NICU, know first-hand just how disorienting and overwhelming the NICU experience and life after can be.

Coping with this life altering experience, exposure to traumatic events, and parenting a NICU baby takes an incredible toll on our mental health.

In partnership with BetterHelp, the world's largest therapy provider, we at Project NICU are proud to provide you with an added layer of support during or after your NICU journey; or as a medical professional in the NICU space.

Through Project NICU, you can receive ONE MONTH of free services with BetterHelp, matching you with a professional counselor you can connect with anytime, anywhere, through a computer, tablet or smartphone.
